Home Cinema

Flexson knows the value of really great home entertainment.
Perfectly mount your Sonos configuration from Arc to Beam to Sub, and peripheral speakers, for the best home cinema experience.

Wall Mount for Sonos Arc

The Flexson Wall Mount for Sonos Arc allows you to install Sonos Arc quickly and easily onto any suitable wall. Its unique design positions the Sonos Arc 30mm in front of the TV, allowing you to harness the power of Dolby Atmos and immerse yourself in your music, movies and more. Like all Flexson products, the Flexson Wall Mount for Sonos Arc is precision engineered in the UK, easy to fit and comes with all the fixings you need.

- Position the Sonos Arc anywhere on the wall
- 30mm step to position speakers in front of the TV
- Optimised for Sonos Trueplay
- Multipoint fixing points
- 3 Part design for reduced packaging waste
- Precision engineered from high-grade steel
- Available in black or white

TV Mount Attachment for Sonos Arc

Designed to fit easily on to any existing TV wall mount, the Flexson TV Mount Attachment for Sonos Arc holds the Arc securely in place while allowing it to move with the screen. Flexson's unique design positions the Sonos Arc 30mm in front of the TV, allowing you to harness the power of Dolby Atmos and immerse yourself in your music, movies and more.

- Position the Sonos Arc on to any existing TV wall mount
- 30mm step to position speakers in front of the TV
- Optimised for Sonos Trueplay
- Multipoint fixing points
- Includes extension arms for larger TV's
- VESA compatibility from 200 x 200 to 800 x 800
- Precision engineered from High Grade Steel
- Suitable for 40" to 80" TV's

Wall Mount for Sonos Beam

Manufactured from steel and finished in either black or white this practical design will enable you to securely mount your Sonos Beam to a wall. There are two fixing points to make sure the Beam stays in place and plenty of access to route the cables you need.

• Compatible with Sonos Beam Gen 1 & Gen 2
• Precision engineered
• Quick and easy to fit
• High grade steel construction
• Available in black or white
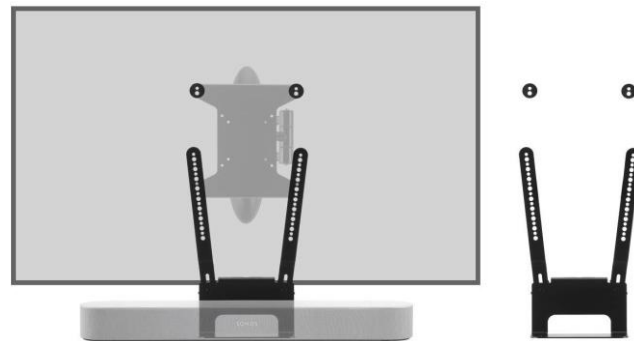

TV Mount Attachment for Sonos Beam

Designed to easily fit onto a full-motion, TV wall mount, this Flexson mount securely holds your Beam in place, while allowing it to move with the screen – meaning optimum performance with music, movies and more. The Flexson TV Mount Attachment for Sonos Beam is easy to fit into your existing flatscreen wall mount. It's the perfect partner for TVs from 32-65in – just add a Sonos Beam for wonderfully unified sound and vision.

• Compatible with Sonos Beam Gen 1 & Gen 2
• Fix the Sonos Beam to any existing TV mount
• Precision engineered
• Quick and easy to fit
• Suitable for 32" to 65" TVs
• High grade steel construction
• VESA compatibility from 100 x 100 up to 400 x 400

Wall Mount for Sonos Ray

This mount is bespoke to suit the Sonos Ray and is precision engineered from High Grade Steel. The Flexson Wall Mount has multi-point fixing points and a one-part design for easy mounting. By requiring less parts, it also helps to reduce package waste.

- Allows you to position the Sonos Ray anywhere on the wall
- 30mm Step Design to position the sound in front of the TV
- Cable Management hole for chasing cables into wall
- One part design for easy installation and reduced packaging waste
- Multi-Point fixing points
- Precision engineered from High Grade Steel
- Available in black or white
TV Mount Attachment for Sonos Ray

TDesigned to fit easily on to any existing TV wall mount, the Flexson TV Mount fpr Sonos Ray. Featuring a 30mm step design, the soundbar is positioned just in front of the TV to optimise the full range of sound, while Flexson's coveted cable management system chases cables straight through a non-intrusive hole and into the wall for a tidy installation.

- Allows you to attach the Sonos Ray securely to any existing TV wall mount
- Bespoke, easy to fit design that holds the Sonos Ray securely
- Sonos Ray moves with your TV when using a full-motion mount
- Vertical and horizontal adjustment allows perfect alignment with screen

- 30mm Step Design to position the sound in front of the TV
- Includes extension arms for larger TVs
- VESA compatibility from 200x200 to 800x800
- Precision engineered from High Grade Steel
- Suitable for 40" to 80" TVs

2x Essentials Adjustable Floor Stand for Sonos ERA 100

The Flexson Adjustable Floor Stands for Sonos Era 100 can hold the speaker at a range of heights, allowing them to adapt to a range of potential Sonos set-ups. Whether you need to hold your speakers lower or higher than a standard floor stand would, the Flexson Adjustable Floor Stands are ready to serve, in style. They come in a twin pack: ideal for setting your speakers up as a stereo pair or as the left/right rear speakers in a surround-sound set-up with a Sonos Arc, Beam or Ray.

- Compatible with Sonos ERA 100
- Adjustable height for positioning anywhere
- Perfect for use in a 5.1 surround sound set-up
- Includes adjustable carpet spikes and sound isolating feet
- Designed to neatly hide cable entry
- Constructed from high grade steel
- Precision engineered in the United Kingdom
- Available in black or white

Wall Mount for Sonos Sub

Flexson's bespoke bracket for the Sonos Sub allows you to wall mount your Subwoofer in the ideal place to sound - and look - great. The Flexson wall bracket is precision engineered to perfectly match the size, style and colour of the Sonos subwoofer. Like all Flexson Sonos products, the wall-mount bracket for the Sonos Sub allows for neat cable routing, easy fitting and flexible placement.

- Compatible with Sonos Sub
- Frees up valuable space
- Allows for discreet positioning
- High grade steel construction
- Precision engineered
- Quick and easy to fit
- Available in black

Audio Components

With Flexson, it's simple to keep audio components such as Sonos Port and Sonos Amp neatly installed as they work to bring traditional audio equipment into a wireless connected sound system.

Wall Mount for Sonos Amp

Mount it on a wall or even attach it to the rear of your TV – the Flexson Wall Mount for Sonos Amp allows you to best position your Sonos Amp whilst keeping things tidy. Once the steel plate is mounted to the wall, the Sonos Amp simply slides into position and is held securely. Cables can then be safely concealed within the stylish cable cover, which matches the colour of the Sonos Amp. The Flexson Wall Mount for Sonos Amp can also be fitted to the rear of a TV.

- Frees up valuable space
- Sonos Amp and cable cover can be inverted
- Fits to rear of a TV using VESA mounts
- Tidy design with cable covers and knock-outs
- Precision engineered
- Quick and easy to fit
- High grade steel construction

Wall Mount for 4 Sonos Amps

Free up space with the Flexson Wall Mount for 4 Sonos Amps, the perfect way to wall mount up to four Sonos Amps. Once mounted the Sonos Amps are quickly fitted. The clever hinged frame is designed to make cabling simpler and if required the connections are easily accessible once the install is completed. Once the frame is closed and secured with the security screw, the units cannot be removed. In addition, for extra security, a padlock can be fitted. From the front, the cables are concealed behind a colour matched cable cover.

- Compatible with four Sonos Amps
- Frame can be hinged left or right
- Rear access to all four units
- Can be securely locked and closed
- Quick and easy to fit
- High grade steel construction
- Designed to neatly hide cable entry
- Precision engineered
Dock for 4 Sonos Amps

The Flexson Dock holds up to four Sonos Amps, keeping your install looking compact and tidy.   Once the unit is fitted to a wall or cabinet the four Sonos Amps simply slide in. The Sonos Amps   then click into place and are held securely in position via clever retaining clips. These clips will allow the unit to be mounted underneath a cabinet if required. There is also enough space inside the Dock to neatly run cables from all four units. The robust steel construction is colour matched to the Sonos Amp.

- Compatible with four Sonos Amps
- Can be desk or wall mounted, or bolted to a cabinet
- Designed to neatly hide cable entry
- Precision engineered
- Quick and easy to fit
- High Grade steel construction

Wall Mount for Sonos Port

Once the steel plate is mounted to the wall, the Sonos Port simply slides into position and is held securely. A padlock (not supplied) can also be fitted to prevent unwanted removal.

- Frees up valuable space
- Can be secured with a padlock (not supplied)
- Precision engineered
- Mount to a wall or back of TV
- Quick and easy to fit

19" Rack Mount for Sonos Amp/Port

The Flexson rack mount allows you to securely and neatly install either 2 x Sonos Amps, 2 x Sonos Ports or 1 x Sonos Amp and 1 x Sonos Port side by side into a traditional 19-inch Rack. Designed entirely to work with Sonos Amp and/or Sonos Port. High grade steel is precisely laser cut with knock out sections that are easily pushed through to allow a neat and tidy installation. It's ideal for commercial installs in bars, restaurants and shops, as well as for home use providing a neat and tidy installation. Magnetic front cover allows for quick and easy installation whilst neatly covering up the installation once installed.

- Compatible with two Sonos Amps, two Sonos Ports or one Sonos Amp and one Sonos Port
- Universal design to fit into all conventional 19" racks
- Magnetic front fascia panel with knock out sections to tailor the installation
- Precision laser cut steel vents for heat dissipation
- Quick and easy to fit

Cables

To better suit an installation, whether floor standing or wall mounting, Flexson offers 35cm and 5m Power Cables.

After:

Before:

Short Power Cable for Sonos ERA, Five, Arc, Beam, Ray and Sub

Flexson's Short Power Cable for Sonos ERA, Five, Arc, Beam, Ray and Sub is a perfect solution if your speaker is close to a power socket. The standard Sonos power cable is 2 metres (6ft) long, which can leave excess trailing cable if your speaker sits close to the power socket. The Flexson Short Power Cable is a mere 35cm (13.8in) long, which allows for a far neater solution. Ideal for kitchens, tabletops and wall mounting.

- Compatible with Sonos ERA, Five, Arc, Ray and Sub
- Eliminates cable clutter
- Replaces existing mains cable
- 35cm (13.8in) long
- Perfect for countertops, tabletops, and wall mounting
- Ideal for use with Flexson Deskstands
- Available in black or white
- Available in EU, US and UK plug types

5M Power Cable for Sonos ERA, Five, Arc, Beam, Ray and Sub

The Flexson 5m Power Cable is the ultimate cabling solution, allowing more positional opportunities for your Sonos Speaker. Coming in black or white finishes to match your speaker, the 5m Power Cable is ideal for Flexson Floor Stands, replacing the existing mains cables for the Sonos ERA, Five, Arc, Ray and Sub. With the extra cabling length, you'll be able to find the perfect position for your Sonos speaker, replacing your old, ugly extension cables.

- Compatible with ERA, Five, Arc, Ray and Sub
- More placement options with longer cable length
- Replaces existing mains cable
- 5m (16ft) long
- Ideal for use with Flexson floor stands
- Available in black or white
- Available in EU, US and UK plug types
